

## HD1115MT

23mm Morse Taper Drill

### Features

- 1100 W power pack extra long life motor with external access to carbon brushes for quick replacement
- With vertical drill stand, it converts into highly accurate Bench drill
- Can be attached to the magnetic drill stand for elevated applications
- Ideal for maximum capacity heavy duty drilling and as a driving unit for cylinder honing equipment in structural engineering works, rail work shops, shipyards, etc.

Model No.	HD1115MT
Specification	23mm Morse Taper Drill
Class of Tool	Single
Drilling Capacity in Concrete	--
Drilling Capacity in Wood	--
Drilling Capacity in Steel	23mm
Drilling Capacity in Aluminium	--
Power Input	1100W
No Load Speed	500rpm
Impact Rate	--
Net Weight	8.8Kg
Dimensions	525mm × 500mm
